

BlueDistinction®

Centers for Transplants

Directory of Providers

Released July 2014

Your Participating Provider Directory

This Provider Directory is your guide to facilities that have been designated as Blue Distinction Centers or Blue Distinction Centers+. We are continually updating this list. If you do not see a particular healthcare provider listed, need additional information regarding a provider or have any questions about your specific benefits, please call the customer service number on the back of your identification card.

A provider's participation in the program is subject to change. To verify this information, please contact the provider before you receive medical services.

If this is an emergency, please proceed to the nearest healthcare facility with an emergency department.

Blue Distinction Centers

When it comes to your health and healthcare, the choices you make matter. Blue Distinction Centers can help you and your doctor have a better informed discussion about finding the right hospital for the specific procedure you need.

Blue Distinction Centers

The Blue Distinction Center program was developed with input from the medical community and evaluates hospitals on their ability to deliver high quality and safe specialty care based on criteria that directly impact patient results – e.g., surgical team expertise and a history of better outcomes for patients.

Blue Distinction Centers+

Blue Distinction Centers+ not only meet the same quality criteria as Blue Distinction Centers, but they also go a step further. Hospitals receiving a Blue Distinction Center+ designation are also measured on how efficiently they deliver this high-quality patient care.

To see a list of the specific selection criteria used to evaluate hospitals for the **Blue Distinction Centers for Transplants** recognition, please visit www.bcbs.com/bluedistinction.

*This hospital indicated voluntarily that Radiologists, Anesthesiologists, Pathologists, Hospitalists, and Intensivists who provide services for elective (scheduled) procedures related to this Blue Distinction® Specialty Care program are in the local Plan's BlueCard PPO network.

Blue Cross Blue Shield Association, an association of independent Blue Cross and Blue Shield Companies.

Blue Distinction Centers (BDC) met overall quality measures for patient safety and outcomes, developed with input from the medical community. Individual outcomes may vary. A Local Blue Plan may require additional criteria for facilities located in its own service area; for details, contact your Local Blue Plan. Blue Distinction Centers+ (BDC+) also met cost measures that address consumers' need for affordable healthcare. Each facility's cost of care is evaluated using data from its Local Blue Plan. Facilities in CA, ID, NY, PA, and WA may lie in two Local Blue Plans' areas, resulting in two evaluations for cost of care; and their own Local Blue Plans decide whether one or both cost of care evaluation(s) must meet BDC+ national criteria. National criteria for BDC and BDC+ are displayed on www.bcbs.com. For details on a provider's in-network status or your own policy's coverage, contact your Local Blue Plan and ask your provider before making an appointment. Neither Blue Cross and Blue Shield Association nor any Blue Plans are responsible for non-covered charges or other losses or damages resulting from Blue Distinction or other provider finder information or care received from Blue Distinction or other providers.

*This hospital indicated voluntarily that Radiologists, Anesthesiologists, Pathologists, Hospitalists, and Intensivists who provide services for elective (scheduled) procedures related to this Blue Distinction® Specialty Care program are in the local Plan's BlueCard PPO network.

Blue Cross Blue Shield Association, an association of independent Blue Cross and Blue Shield Companies.

Blue Distinction Centers (BDC) met overall quality measures for patient safety and outcomes, developed with input from the medical community. Individual outcomes may vary. A Local Blue Plan may require additional criteria for facilities located in its own service area; for details, contact your Local Blue Plan. Blue Distinction Centers+ (BDC+) also met cost measures that address consumers' need for affordable healthcare. Each facility's cost of care is evaluated using data from its Local Blue Plan. Facilities in CA, ID, NY, PA, and WA may lie in two Local Blue Plans' areas, resulting in two evaluations for cost of care; and their own Local Blue Plans decide whether one or both cost of care evaluation(s) must meet BDC+ national criteria. National criteria for BDC and BDC+ are displayed on www.bcbs.com. For details on a provider's in-network status or your own policy's coverage, contact your Local Blue Plan and ask your provider before making an appointment. Neither Blue Cross and Blue Shield Association nor any Blue Plans are responsible for non-covered charges or other losses or damages resulting from Blue Distinction or other provider finder information or care received from Blue Distinction or other providers.
